Invitation

We are living in a visual world. Images and visualisations are dominating our everyday life. By focusing on the visual world we tend to neglect other sensory experiences.

At this one-day multidisciplinary event we will highlight the role of sensory experiences of our environment as well as interactions and opportunities of multi-sensory representations.

The conference will span a range of disciplines from Arts and Humanities, Social Sciences, Engineering as well as Natural Sciences.

We cordially invite you to

Sense and Visibility Multisensory Experience and Representation of the Environment beyond the Visual

Friday · 31 March, 2023 · 9.30 a.m. – 5 p.m.
HafenCity University Hamburg,
Henning-Voscherau-Platz 1, 20457 Hamburg

To attend please register at [eventbrite](#)
More details, the program and the speakers can be found [here](#)
